Pitch Adjust CD Covers

Pitch Adjust is a music label and website based in Sweden which mainly focus on Techno and Clubbing Music.

A CD Cover competition was held by them during February to March in 2002 for their 4 CDs Complication -- Delicious, a Tech House style CD Complication.

To cope with the smooth and groove feeling of Tech House music, some "liquid" and "silk-like" graphic style is used to illustrate the movement of hair in House dancing. White shade of body movement enhance the sexy and erotic feeling which House music usually deliver.

This set of CD Covers finally selected by **Pitch Adjust** as the winner of the competition.
